LEGACY—The National Guard is a unique and essential element of the U.S. military. Founded in 1636 as a citizen force organized to protect families and towns from hostile attacks, today's National Guard Soldiers hold civilian jobs or attend college while maintaining their military training part time, always ready to defend the American way of life in the event of an emergency.

MISSION—National Guard Soldiers serve both community and country. Our versatility enables us to respond to domestic emergencies, overseas combat missions, counterdrug efforts, reconstruction missions and more. The Guard always responds with speed, strength and efficiency, helping to defend American freedom and ideals.

CITIZEN-SOLDIER—As a Guard Soldier, your primary area of operation is your home state, following the leadership of your state adjutant general and governor. This may include community efforts, such as responding to wildfires and floods, or it may include overseas service for missions such as training foreign forces.
